# Enquiry and order form

## Made-to-order membranes for roof projects

* ☐ **Price enquiry** * ☐ **Order**

### Roofing underlay membranes

* ☐ SOLITEX WELDANO 3000
* ☐ SOLITEX QUANTHO 3000 connect
* ☐ SOLITEX MENTO 3000 connect
* ☐ SOLITEX MENTO 5000 connect

### Airtightness membranes for roof retrofit projects

* ☐ INTELLO X connect
* ☐ DA connect
* ☐ DASAPLANO 0,01 connect

If you have questions about the performance of your planned structural design from a building physics perspective, please contact our Technical Support service at +49 (0) 62 02 - 27 82.45 or support@proclima.com.

### Required data for precise pre-fabrication:

+ **Roof layout drawing**
+ m² of the relevant surfaces
+ Eave lengths
+ Ridge lengths
+ Actual rafter lengths
+ Actual hip/valley lengths (if present)
+ Roof pitch in °
+ Cross-sectional and top-view roof plan drawings with dimensions
+ Specify the water run-off direction

**Please note:**

+ We will allow an additional 20 cm for all lengths used in calculations.
+ We will allow an additional 50 cm for all hip/valley lengths.

Max. area per sheet: 11.8 m x 25 m
Max. bargeboard length: 11.8 m (38' 9");
Max. eave length: 25 m (82')
Minimum area: > 200 m²

## Roof type

* ☐  Gable roof

* ☐  Hip roof

* ☐  Half-hip roof

* ☐  Mansard roof

* ☐ Contact us regarding other roof shapes

Please send detailed 2D surface drawings as a **PDF file** by e-mail to **order@proclima.com**.
Hand drawings are also acceptable, but please be sure to clearly mark the correct lengths.

**Continue**

* Compulsory fields

**Please note** that orders for project-specific membrane sheets cannot be cancelled once we have received your order.

Goods will be shipped on Euro pallets. Delivery 10 working days after receipt of order for delivery locations in Germany, Austria, France, the Netherlands and Belgium.
Upon submission of the completed form, the customer assumes liability for the correctness of the dimensions.
Amendments must be submitted in writing and can only be accepted if pre-fabrication of the made-to-order membranes has not yet been started.
